

## LCN640

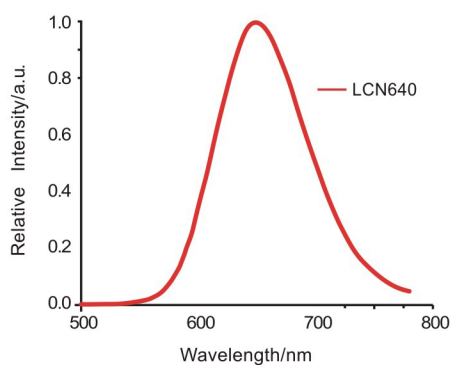

## 技术参数 Specification

|                       |                      |
|-----------------------|----------------------|
| 化学组成 Material         | 1113 结构硅基氮化物         |
| 密度 Density            | 3.8g/cm <sup>3</sup> |
| 峰波长 Peak Wavelength   | 640±2nm              |
| 主波长 Domain Wavelength | 605±1nm              |
| 色坐标 CIE1931           | X=0.645±0.002        |
|                       | y=0.354±0.002        |
| 粒径 Particle Size      | D10=6±1μm            |
|                       | D50=9±1μm            |
|                       | D90=17±1μm           |
| 半峰宽 FWHM              | 88±2nm               |
| 激发范围 Excitation Range | 250nm-550nm          |
